

Standard Orchid Ecological Data Form

Focus: Knowledge Gap Filling & IUCN Species Assessments

1. Observer & Metadata

Observer Name(s) *	42542524	Institution / Organization	42552454
--------------------	----------	----------------------------	----------

Date *	2026-03-11	Time	
--------	------------	------	--

Survey Type

☒ Targeted Species Search ☐ General Plot Survey ☐ Incidental Observation

2. Locality & Geospatial Data

Country	25452445	Region/Province	25452
---------	----------	-----------------	-------

Site / Protected Area Name24525

Coordinates		 Get Current Location
Latitude (DD)	Longitude (DD)	GPS Accuracy (m)
2455	2452455	254524

Elevation Min (m)	Elevation Max (m)	Slope Angle (°)
245245	245245	245245

3. Taxonomic Identification

Species Name *	245524	Subspecies / Variety	245245
----------------	--------	----------------------	--------

Identification Certainty	ID Method
Select...	Select...

5. Population Metrics

Total Individuals Counted	Mature (Reproducing)	Immature / Seedlings
25245	24525	2545245

Reproductive Output		
Plants with Flowers	Flower number/inflorescence	Plants with Capsules
